A software developer who is able to realise fully responsive, mobile first projects from the ground up. I am well versed in all the key languages in the MERN stack. I am a talented individual with industrious and systematic approach to learning new technology. An open and clear worker with disciplined execution and methodical nature. I am also a motivated individual with formal knowledge gained through excellent classroom performance. I offer excellent communication and organizational abilities along with fluency in virtual work. I am open to learning and working with teammates to achieve team goals.

SKILLS

- CSS - Responsive web design, Tailwind
- Javascript - ES6, Reactjs
